Program Notes

**Ce cE ceLLo 1.0**

**for Cello and computer MusiC on cD**

**Ce cE ceLLo 1.0** was commissioned by the cellist, Craig Hultgren. He premiered it on November 14, 2000 at the Birmingham Art Music Alliance's ElectroAcoustic concert held at Birmingham-Southern College. The CD part consists of prerecorded cello sounds which were manipulated using the Sound Forge software program. The composition was made possible through a generous Technical Assistance Grant from the Alabama State Council on the Arts.
